

Curriculum Vitae

Name Michiel van den Berg

Date and place of birth 30 November 1952, Schiedam, The Netherlands

Nationality Netherlands

Address School of Mathematics, University of Bristol, Fry Building, Woodland Road, Bristol BS8 1UG, United Kingdom

E-mail M.vandenBerg AT bristol.ac.uk

Telephone 0(044)-117-4284826

Academic qualifications

M.Sc. in Physics, University of Technology, Delft, The Netherlands, 27 April 1976.

Ph.D. in Mathematics and Physical Sciences, University of Groningen, The Netherlands, 27 February 1981.

Previous appointments

Research worker, Department of Theoretical Physics, University of Technology, Delft, October 1976 - December 1976.

Research worker, Netherlands Organization for the Advancement of Pure Research, Groningen, January 1977 - June 1981.

Research worker, Department of Mathematics and System Engineering, Koninklijke Shell Laboratorium, Amsterdam, September 1981 - May 1982.

Assistant Professor, School of Theoretical Physics, Institute for Advanced Studies, Dublin, October 1982 - September 1984.

Lecturer, Department of Mathematics, Heriot-Watt University, Edinburgh, October 1984 - July 1988.

Reader, Department of Mathematics, Heriot-Watt University, Edinburgh, August 1988 - July 1992.

Professor, Department of Mathematics, Heriot-Watt University, Edinburgh, August 1992 - December 1995.

Professor of Pure Mathematics, School of Mathematics, University of Bristol, January 1996 - August 2017.

Professor Emeritus, School of Mathematics, University of Bristol, September 2017 -

Awards and Fellowships

Leverhulme Trust Research Fellowship 2000/0299

Leverhulme Trust Research Fellowship 2008/0368

Leverhulme Trust Emeritus Fellowship EM-2018-011-9

Publications

- (131) M. van den Berg, *Localisation for the torsion function and first Dirichlet eigenfunction*, Oberwolfach Reports, to appear.
- (130) M. van den Berg, *On some isoperimetric inequalities for the Newtonian capacity*, submitted.
- (129) M. van den Berg, D. Bucur, *On localisation of eigenfunctions of the Laplace operator*, submitted.
- (128) M. van den Berg, A. Malchiodi, *On some variational problems involving capacity, torsional rigidity, perimeter and measure*, Advances in Calculus of Variations **16**, 961–974 (2023).
- (127) M. van den Berg, H. Aikawa, J. Masamune, *Intrinsic ultracontractivity for domains in negatively curved manifolds*, Computational Mathematics and Function Theory **21**, 797–824 (2021).
- (126) M. van den Berg, T. Kappeler, *Localization for the torsion function and the strong Hardy inequality*, Mathematika **67**, 514–531 (2021).
- (125) M. van den Berg, D. Bucur, T. Kappeler, *On efficiency and localisation for the torsion function*, Potential Analysis **57**, 571–600 (2022).

Invited talks

- 291. On some isoperimetric inequalities for the Newtonian capacity, Conference New Frontiers in Probability, University of Leiden, 28.9.2023.
- 290. Maximising the product of torsional rigidity and Newtonian capacity among convex sets with a perimeter constraint, Conference Shape Optimization and Isoperimetric and Functional Inequalities, Levico Terme, Italy, 18.9.2023.
- 289. Localisation for the torsion function and first Dirichlet eigenfunction, Workshop Geometric Spectral Theory, Mathematisches Forschungsinstitut Oberwolfach, 25.8.2023.
- 288. On some isoperimetric inequalities for the Newtonian capacity, Analysis and PDE Seminar, University of Durham, 15.6.2023.
- 287. Localisation for the torsion function and first Dirichlet eigenfunction, Conference Analysis and Hamiltonian PDEs: remembering Thomas Kappeler, University of Zürich, 5.6.2023.
- 286. Localisation for the torsion function and first Dirichlet eigenfunction, Spectral Geometry and Applications, On the occasion of Michael Levitin's 60'th birthday, Université Laval, Québec, 9.5.2023.
- 285. On some variational problems involving capacity, torsional rigidity, perimeter and measure, Workshop Shape Optimisation and Geometric Spectral Theory, ICMS Edinburgh, 20.9.2022.
- 284. Localisation for the torsion function and first Dirichlet eigenfunction, Conference Probability, Analysis and Dynamics, Bristol, 6.4.2022.
- 283. Localisation for the torsion function and first Dirichlet eigenfunction, Dortmund-Hagen-Wuppertal-Analysis-Treffen, Fern Universität Hagen, 17.11.2021.

- 282. Localisation for the torsion function and first Dirichlet eigenfunction, Two Day Meeting Spectral theory and partial differential equations, University of Durham, 16.9.2021.
- 281. Efficiency and localisation for the first Dirichlet eigenfunction, Scuola Normale Superiore, Pisa, 8.1.2020.
